Kid's Fun Learning Activities at Renewable Energy Stampede

SALADO, Texas -- The [Renewable Energy Stampede & Green Living Fair](#) offers a family atmosphere with spring outdoor activities that are entertaining, interactive and informative. The Family Activities Tent is home to games and activities for all ages. Kids learn with hands-on activities and demonstrations. They can turn pizza boxes into solar ovens and cook s'mores, they can build solar powered cars and race them on the track or make solar bead bracelets. Entry to the Renewable Energy Stampede for kids 12 and under is free and most craft activities are also free. Other activities for kids include face painting, fine arts and a renewable energy powered ride called the jiggle bug. Live musical entertainment is scheduled regularly throughout the weekend

The Renewable Energy Stampede & Green Living Fair is co-organized by:

- [Texas Renewable Energy Industries Association](#)
- [Texas Solar Energy Society](#)
- [Texas Organic Farmers and Gardeners Association](#), a cooperating participant.

Proceeds benefit TREIA and TXSES, two non-profits that strive to increase the understanding and awareness of renewable energy applications and promote their wide use. Major sponsorship is provided by the Village of Salado, Oncor and Johnson Controls. For more details contact 877-376-8638 or email info@renewablestampede.org.
